NL INDUSTRIES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND BASIS OF PRESENTATION:

NL Industries, Inc. is primarily a holding company and conducts its operations through its wholly-owned subsidiaries, Kronos, Inc. (titanium dioxide pigments, or "TiO2") and Rheox, Inc. (specialty chemicals). At June 30, 1994, Valhi, Inc. held approximately 49% of NL's outstanding common stock and Tremont Corporation, a 48%-owned affiliate of Valhi, held an additional 18% of NL's outstanding common stock. Together, Tremont and Valhi may be deemed to control NL. Contran Corporation holds, directly or through subsidiaries, approximately 90% of Valhi's outstanding common stock.

The consolidated balance sheet of NL Industries, Inc. and Subsidiaries (collectively, the "Company") at December 31, 1993 has been condensed from the Company's audited consolidated financial statements at that date. The consolidated balance sheet at June 30, 1994 and the consolidated statements of operations, shareholders' deficit and cash flows for the interim periods ended June 30, 1993 and 1994, have been prepared by the Company, without audit. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the consolidated financial position, results of operations and cash flows have been made. The results of operations for the interim periods are not necessarily indicative of the operating results for a full year or of future operations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. Certain prior-year amounts have been reclassified to conform to the 1994 presentation. The accompanying consolidated financial statements should be read in conjunction with the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 1993 (the "1993 Annual Report").

NOTE 2 - LOSS PER SHARE OF COMMON STOCK:

Loss per share of common stock is based on the weighted average number of common shares outstanding. Common stock equivalents are excluded from the computation because they are antidilutive.

NOTE 3 - BUSINESS SEGMENT INFORMATION:

The Company's operations are conducted in two business segments - TiO2 conducted by Kronos and specialty chemicals conducted by Rheox.

NOTE 13 - COMMITMENTS AND CONTINGENCIES:

For descriptions of certain legal proceedings, income tax and other commitments and contingencies related to the Company, reference is made to (i) Part II, Item 1 - "Legal Proceedings," (ii) the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 1994 and (iii) the 1993 Annual Report.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

The Company's chemical operations are conducted in two business segments - TiO2 conducted by Kronos and specialty chemicals conducted by Rheox. The Company's return to profitability, and the timing thereof, are dependent in large part upon improved pricing for TiO2. Based on the Company's current near-term outlook for its TiO2 business, the Company expects to report a net loss for calendar 1994, although its results for the second half of the year should be improved compared to 1993.

	Three months ended June 30,			Six months ended June 30,		
	1993	1994	% Change	1993	1994	% Change
	(In millions)			(In millions)		
Net sales:						
Kronos	\$193.2	\$206.4	+7%	\$365.3	\$380.7	+4%
Rheox	28.2	30.7	+9%	54.6	58.3	+7%
	\$221.4	\$237.1	+7%	\$419.9	\$439.0	+5%
Operating income:						
Kronos	\$ 7.6	\$ 17.6	+135%	\$ 24.7	\$ 33.1	+34%
Rheox	7.6	8.6	+12%	13.6	15.5	+14%
	\$ 15.2	\$ 26.2	+73%	\$ 38.3	\$ 48.6	+27%
Percent changes in TiO2:						
Sales volume			+10%			+9%
Average selling prices (in billing currencies)			+1%			-1%

Kronos' TiO2 operating income in the second quarter and first half of 1994 increased from the comparable 1993 periods due to higher sales volumes, slightly lower per unit operating costs and technology fee income. Primarily as a result of improved pricing in Europe, Kronos' average TiO2 selling prices in the first half of 1994 approximated both first-half 1993 and full-year 1993 average selling prices. A significant amount of sales are denominated in currencies other than the U.S. dollar, and fluctuations in the value of the U.S. dollar

relative to other currencies decreased the dollar value of sales for the second quarter and first half of 1994 by \$7 million and \$15 million, respectively, compared to the 1993 periods. Kronos expects the impact of previously-announced price increases will further improve its operating income in the second half of 1994. Rheox's operating results for both the second quarter and first half of 1994 improved compared to the 1993 periods primarily as a result of higher sales volumes and lower operating costs.

The following table sets forth certain information regarding general corporate income (expense).

	Three months ended June 30,			Six months ended June 30,		
	1993	1994	Difference	1993	1994	Difference
	(In millions)			(In millions)		
Securities earnings	\$ 1.3	\$.7	\$ (.6)	\$ 4.2	\$.9	\$(3.3)
Corporate expenses, net	(13.4)	(17.7)	(4.3)	(22.0)	(18.5)	3.5
Interest expense	(26.6)	(21.1)	5.5	(52.8)	(42.1)	10.7
	\$(38.7)	\$(38.1)	\$.6	\$(70.6)	\$(59.7)	\$10.9

Year-to-date corporate expenses, net were lower as a \$20 million gain related to the first-quarter 1994 settlement of the Company's lawsuit against Lockheed Corporation was partially offset by increased provisions for environmental remediation and other costs.

Interest expense declined due to lower debt outstanding and lower interest rates on Deutsche mark-denominated debt, partially offset by the higher interest rates on the Company's Senior Notes.

The Company's operations are conducted on a worldwide basis. In both 1993 and 1994, the Company's income tax expense was impacted by losses in certain

countries for which no current refund is available and for which the Company believes recognition of a deferred tax asset is not currently considered appropriate.

LIQUIDITY AND CAPITAL RESOURCES

The Company's consolidated cash flows from operating, investing and financing activities for the six months ended June 30, 1993 and 1994 are presented below.

	Six months ended June 30,	
	1993	1994
	(In millions)	
Net cash provided (used) by:		
Operating activities	\$(34.3)	\$111.6
Investing activities	37.3	(13.6)
Financing activities	(16.9)	(73.8)
 Net cash provided (used) by operating, investing and financing activities	 \$(13.9)	 \$ 24.2

The TiO₂ industry is cyclical, with the previous peak in selling prices in early 1990. During the recent down cycle of the past few years, the Company's operations have used significant amounts of cash. Receipt of the German tentative tax refunds, discussed below, significantly increased the Company's cash flow from operating activities for the first half of 1994 and was a factor in the Company's improved liquidity. Excluding the effects of the receipt of the German tentative tax refunds, the Company's operations continued to use cash during the first half of 1994 but at a lower rate than the year-earlier period. The Company has taken and continues to take measures to manage its near-term and long-term liquidity requirements, including cost reduction efforts, tightening of controls over working capital and the formation of a TiO₂ manufacturing joint venture and the refinancing of certain debt in 1993. The Company currently expects to have sufficient liquidity to meet its obligations including operations, capital expenditures and debt service.

Certain of the Company's income tax returns in various U.S. and non-U.S. jurisdictions, including Germany, are being examined and tax authorities have proposed or may propose tax deficiencies. During the second quarter of 1994, the German tax authorities withdrew certain tax assessment reports and remitted tax refunds aggregating DM 185 million (\$112 million), including interest, on a tentative basis. The Company applied DM 143 million (\$87 million) of the German tentative tax refunds to reduce outstanding borrowings under its DM revolving credit facility. The examination of the Company's German income tax returns continues. The Company understands the German tax authorities intend to remit additional tentative refunds aggregating DM 35 million and issue new assessment reports proposing tax deficiencies. The Company expects to apply the additional tentative refunds to reduce the outstanding borrowings under its DM bank credit facility. The Company has granted a DM 100 million (\$63 million at June 30, 1994) lien on its Nordenham, Germany TiO₂ plant in favor of the German tax authorities until any future assessments proposing tax deficiencies are resolved. The timing of receipt of any additional tentative tax refunds and the timing and amount of new assessments proposing tax deficiencies remains uncertain. The Company believes that it has adequately provided accruals for additional income taxes and related interest expense which may ultimately result from all such examinations.

Net repayments of indebtedness in the first half of 1994 include payments of DM 143 million of the DM credit facility (\$87 million), \$8 million on the Rheox bank term loan and \$8 million on the joint venture term loan, and borrowings under the DM bank credit facility of DM 55 million (\$33 million).

At June 30, 1994, the Company had cash, cash equivalents and current marketable securities aggregating \$161 million (34% held by non-U.S. subsidiaries) including restricted cash and cash equivalents of \$15 million. The Company's subsidiaries had \$178 million available for borrowing under existing non-U.S. credit facilities at June 30, 1994, of which \$90 million is available only for (i) permanently reducing the DM term loan or (ii) paying future German tax assessments, as described above.

The Company has been named as a defendant, potentially responsible party, or both, in a number of legal proceedings associated with environmental matters, including waste disposal sites currently or formerly owned, operated or used by the Company, many of which disposal sites or facilities are on the U.S. Environmental Protection Agency's Superfund National Priorities List or similar state lists. The Company believes it has adequate reserves (\$87 million at June 30, 1994) for reasonably estimable costs of such matters. It is not possible to estimate the range of costs for certain sites. The Company has estimated that the upper end of the range of reasonably possible costs to the Company for sites

for which it is possible to estimate costs is approximately \$136 million. No assurance can be given that actual costs will not exceed accrued amounts or the upper end of the range for sites for which estimates have been made, and no assurance can be given that costs will not be incurred with respect to sites as to which no estimate presently can be made. Further, there can be no assurance that additional environmental matters will not arise in the future. The Company is also a defendant in a number of legal proceedings seeking damages for personal injury and property damage arising out of the sale of lead pigments and lead-based paints. Based on, among other things, the results of such litigation to date, the Company believes that the pending lead pigment litigation is without merit and has not accrued any amounts for such pending lead pigment litigation. The Company currently believes the disposition of all claims and disputes, individually or in the aggregate, should not have a material adverse effect on the Company's consolidated financial position, results of operations or liquidity. There can be no assurance that additional matters of these types will not arise in the future. In addition, various legislation and administrative regulations have, from time to time, been enacted or proposed at the state, local and federal levels that seek to impose various obligations on present and former manufacturers of lead pigment and lead-based paint with respect to asserted health concerns associated with the use of such products and effectively overturn court decisions in which the Company and other pigment manufacturers have been successful.

The Company periodically evaluates its liquidity requirements, capital needs and availability of resources in view of, among other things, its debt service requirements, capital expenditure requirements and estimated future operating cash flows. As a result of this process, the Company has in the past and may in the future seek to refinance or restructure indebtedness, raise additional capital, restructure ownership interests, sell interests in subsidiaries, marketable securities or other assets, or take a combination of such steps or other steps to increase its liquidity and capital resources.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Reference is made to the 1993 Annual Report and the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 1994 for descriptions of certain previously-reported legal proceedings.

Coren, et al. v. Cardozo v. Sherwin-Williams, et al. and Pacheco, et al. v. Ortiz v. The Sherwin-Williams Company, et al. In May 1994, joint stipulations of dismissal without prejudice were filed by the third-party plaintiff and the third-party defendants (including the Company) in each of these previously-reported cases.

Barros v. Pires v. Sherwin-Williams Co., et al. In May 1994, the third-party plaintiffs withdrew their motion for reconsideration or reversal of the court's previous decision dismissing the third-party defendants, including the Company.

The City of New York, the New York City Housing Authority and the New York City Health and Hospitals Corp. v. Lead Industries Association, Inc., et al. In May 1994, the trial court granted the defendants' motion to dismiss the plaintiffs' restitution and indemnification claims. The plaintiffs filed a notice of appeal.

Skipworth v. Sherwin-Williams Co., et al. In June 1994, the plaintiffs appealed the trial court's decision dismissing the plaintiffs' case with prejudice.

NL Industries, Inc. v. Commercial Union Insurance Cos., et al. In July 1994, the court entered judgment on the previously-reported order requiring Commercial Union to pay previously-incurred Company costs in defending two lead pigment cases. The defendant's time to appeal has not yet expired.

Wagner, et al. v. Anzon and NL Industries, Inc. Defendants' motion for summary judgment was denied; trial remains set for September 1994.

United States of America v. Peter Gull and NL Industries, Inc. In June 1994, both the Company and the U.S. Environmental Protection Agency (the "U.S. EPA") appealed the previously-reported judgment.

Pedricktown. In July 1994, the U.S. EPA selected a remediation plan for the remaining clean-up of operable unit one which the U.S. EPA estimates will cost \$18.7 million to complete. No agreement regarding the allocation of such costs among the potential responsible parties has been reached.

Dallas Smelter. The Texas Natural Resources Commission has filed a report and petition against the Company and Mainland Land and Equipment ("Mainland") seeking approximately \$.2 million in penalties and implementation of a site investigation plan in connection with the Company's former smelter in Dallas, Texas. The report and petition alleges that the Company and Mainland are

responsible for the discharge of pollutants and for the failure to undertake actions to abate and remove the discharge of pollutants. The Company has filed an answer denying the allegations and has requested a hearing.

Day, et al. v. NLO, Inc., et al. In July 1994, the parties reached a settlement agreement pursuant to which the Department of Energy would pay all costs of the settlement, the plaintiffs' case would be dismissed, and the Company and NLO would be released and dismissed. The settlement is subject to final court approval.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Company held its Annual Meeting of Stockholders on May 4, 1994. The only matter voted upon was the election of directors. All of the Company's directors stood for election. The vote with respect to each was as follows:

Director	Vote For	Vote Withheld
J. Landis Martin	47,254,675	277,704
Kenneth R. Peak	47,266,695	265,684
Glenn R. Simmons	47,241,495	290,884
Harold C. Simmons	47,249,605	282,774
Michael A. Snetzer	47,265,057	267,322
Lawrence A. Wigdor	47,266,793	265,586
Admiral Elmo R. Zumwalt, Jr.	47,260,756	271,623

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) EXHIBITS

None.

(b) REPORTS ON FORM 8-K

Reports on Form 8-K for the quarter ended June 30, 1994 and for the month of July 1994:

April 25, 1994 - reported Items 5 and 7.
May 5, 1994 - reported Items 5.
May 31, 1994 - reported Items 5 and 7.
July 25, 1994 - reported Items 5 and 7.
